Compact brine-to-water heat pump for indoor installation.

Heat pump for heating purposes for indoor installation with integrated heat pump manager WPM Econ5 with touch display. Variable connection options for brine and heating connections on the back board of the casing. Sound-optimised through encapsulated compressor housing and free-swinging compressor baseplate. High coefficients of performance (COP) thanks to electronic regulation of the volume flows and optimised heat transfer due to asymmetrical heat exchanger. Integrated brine components enable direct connection of the heat source:
Electronically regulated brine circulating pump (observe the free compression)
Expansion vessel (8 l)
Safety valve and pressure gauge
Compact design with optional domestic hot water preparation and integrated components for direct connection of an unmixed heating circuit (must not be used for bivalent systems):
High-efficiency heat circulating pump (note the free compression)
Overflow valve and safety module with pressure gauge Expansion vessel (24 l)
Thermal energy metering for heating/domestic hot water preparation, soft starter (from SIK 8 upwards), integrated flow and return sensors; external sensor (standard NTC-2), dirt filter and large-capacity breather (1½“) with micro air bubble deposition for brine circuit included in the scope of supply. Heat pump white textured (similar to RAL 9003).

Technical Data

Order reference	SIK 11TES
Heating water flow rate acc. EN 1511	1.8
Heating water flow rate pressure drop according to EN 14511	17800
Heat source flow (min.)	2.2
Maximum electric power consumption	4.5
Nominal power consumption according to EN 14511 at B0/W35	2.13
Seasonal room heating energy efficiency (high temperature)	142
Energy efficiency class with 55 °C flow temperature	A++
Seasonal space heating energy efficiency in average climate conditions (NT)	206
Energy efficiency class with 35 °C flow temperature	A+++
Connection voltage	3/N/PE ~400 V, 50 Hz
Dimensions (W x H x D)**	652 x 1115 x 688 mm

SIK 11TES
Data sheet

Experience Better Living.

Order reference	SIK 11TES
Weight	147 kg

* Heating and cooling capacity and coefficients of performance (COP/EER) in accordance with EN 14511
** Please note that additional space is required for pipe connection, operation and maintenance.
*** The fuse protection must be designed as an all-pole disconnecting device (common disconnection of all phases)!

* Additional specific accessories available/required

Important notice

The combination of components and the specified quantities represent a non-binding example system that must be reviewed and, if necessary, adjusted individually.
The pumpsizing needs to be checked according to the system's pressure loss and the minimum heating water flow rate of the heat pump.
